

SHAREPOINT® PRODUCTS OVERVIEW

Synergy works to solve the needs of globally distributed enterprise-sized businesses. Synergy's flagship product, Replicator, is a back end, web-based platform used to synchronize and manage data with full real-time across a wide area SharePoint server environment. Products available include:

Synergy Replicator for SharePoint

Replicate content from one SharePoint® instance to another. Share the contents of a site collection with a DMZ instance of SharePoint® for your partners. Full real-time enterprise class bi-directional replication with a remote office site for 100% availability regardless of network.

Connect

Content moving, content migration (across versions), visualizing connections from one SharePoint Farm to another. Compare collections, re-organize and edit content.

Cut and Paste

GUI additions to the farm to allow user friendly operations: multi-select, copying or moving of documents including all of its versions. Simple pull-down menus to add cut and copy, email and multi-download capabilities.

Bulk Loader

Providing the capability to load large volumes of data into SharePoint®. Supports advanced features such as loading tasks, setting document permissions, discussions as well as site and document library creation.

ShareLink

Products and services to enable an Open Text Livelink® or eDocs system to be available in part of the SharePoint® portal, or tools for migrating Open Text products to SharePoint®.

Do You?

- Need to compare two sites?
- Want to collaborate effectively with customers and partners outside the firewall?
- Need to maintain versions during the moving of documents?
- Have multiple SharePoint installations?
- Have separate intranet and extranets?
- Need to load documents with metadata?
- Have a remote office?
- Need to merge two SharePoint environments?

Increase Your Corporate Productivity
Synergy specializes in systems that extend the capabilities of SharePoint®. Our mission is to provide cost effective solutions that scale from the department to the enterprise.
